London, Taylor's capital seems to be on the incline religiously, and the churches there must be strong, judging from the number of religious gatherings of importance they are entertaining of late. Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. The first Big show of the season will visit Clay City Tuesday June 24th. Surely this item of news will please the young folks, the children and the older ones also. Sun Bros.' World's progressive Show is one that has a standing record for presenting a good performance in one big ring, in the good old style. Sun Bros. run their show strictly on business and moral principles. Nothing is permitted to appear that will mar the pleasure of the skeptically inclined. Neither are the usual

army of fakirs (often seen following in the wake of shows) allowed to follow this organization. The long standing reputation of the Sun Brothers throughout America and the Dominion of Canada shall not be jeopardized by allowing any catchpenney affair to be connected with their show. Fifty great celebrated artists will appear at every performance. Fully two hours and one-half of enjoyment is afforded. Let's all attend. Afternoon at 2 o'clock. Evenings at 8 o'clock.

The Hon. F. A. Hopkins, candidate for Congress in this district, has been here and at Stanton several days this week. Mr. Hopkins is an agreeable gentleman and found more supporters in this county than he expected to find. He is a self-made man, and one that is taking wherever he goes. He spoke at Stanton Monday and proved himself to be well posted on current affairs and to be well, and perhaps better, qualified to represent this district than any one elected to this capacity for a number of years past. Mr Hopkins is a mixing man, and the other candidates are going to find that he is not in this race for fun.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.
